Course Title	Understanding Physics using MATLAB.						
Aim/ Course Description	This course aims to provide PG students with a solid foundation in both theoretical physics and practical MATLAB skills, preparing them for research, Academia or professional roles in physics and related disciplines.						
Course Objectives	<ol style="list-style-type: none"> 1. To provide PG students with a comprehensive understanding of key Physics principles and concepts. 2. To equip students with advanced MATLAB programming skills tailored for physics applications. 3. To foster critical thinking and problem-solving abilities in the context of physics problems and simulations. 4. To encourage independent research and project work applying MATLAB to physics-related challenges. 5. To prepare students for further academic or professional pursuits in Physics or related fields.
