Name of Activity: Current IT Trends

Date: 13/03/2023

Time: 10 am to 12pm

Name of Guest:

Ms. Geeta Sonawane (Manager at Cognizant)

Vice Principal . Dr. A. M. Patil ,

Prof. Manasi Vaidya (HOD Com. App. & Mag. Studies)

No. of beneficiaries: 100 Students

Objective of Activity:-

- The main objective behind organizing this seminar is to discuss the current technologies of IT industry among the faculties and students of Computer Application and Computer Science.
- The objective of seminar is that academicians should know the technologies and current trends of software development so that those subjects and technologies can be included in academic and special training programs can be organized.
- This will lead to the fulfillment of industry requirements from graduates and post graduate candidates and will help the students to get the career opportunity.

Program in Brief:-

- The Computer Application department of College of Arts, Science and Commerce, Shirpur organized a guest lecture on March 13, 2023 for BCA . Computer Application students.
- Ms Geeta Sonawane was invited as the speaker for the seminar on “Recent Trends in Information Technology(I.T.)”.
- She possessed over 10 years of experience in Information Technology(I.T.) field and in different IT domains. She shared his industry experiences and explained in detail the latest technologies like Business Intelligence, Networking, Internet of Things (IoT), etc enhancing in I.T. field. She also spoke on career perspective domains in I.T. industries for the students.

Outcome of Activity: -

- The feedback from the participants indicated that the objectives of the Seminar was fulfilled.
- The topics and presentations by speakers were of high quality. The one-day State Level seminar on “Current IT Trends” was found to be a practical model for an initial attempt to aware faculty and students about NLP, IoT and Deep Learning.

Glimpses of program:

Guest Lecture by Ms. Geeta Sonawane (Manager, Cognizant) Date: 10/03/2023

OBJECTIVES:

This main objective behind organizing this seminar is to discuss the current technologies of IT industry among the faculties and students of Computer Application. The objective of seminar is that academicians should know the technologies and current trends of software development so that those subjects and technologies can be included in academic and special training program can be organized.

Organized by

Training and Placemen Cell

Road Map

- What is Data Science
- Data Science & Machine Learning
- Supervised Learning
- Learning With Tree
- Understanding Decision
- Information Gain – Branch
- Gini Index – Branch
- Demonstration

The slide is overlaid with a Zoom meeting interface showing a grid of participants and a 'Participants (169)' list on the right.

The Zoom meeting screen displays several slides and a participant list:

- A robot driving learning problem**: Image of a robot on a grassy field.
- Machine Learning is the backbone of data science**: Image of a chessboard.
- Identifying the astr shapes**: Image of a starry night sky.
- Two views of the same two wind turbines**: Two side-by-side images of wind turbines.

The Zoom interface includes a 'Participants (172)' list on the right with names like Anagha Bholane, Prof.B.S.Panchbhai, and Varsha M. Pathak.

Now data is Big data!

- No single standard definition!
- 'Big-data' is similar to 'Small-data', but bigger
...but having data bigger consequently requires different approach
 - techniques, tools and architectures

...to solve: new problems
...and, of course, in a better way

Big data is data whose scale, diversity, and complexity require new architecture, techniques, algorithms, and analytics to manage it and extract value and hidden knowledge from it...

Rubicon Foundation

Resource Person: Mr. Dhananjay Narayanan (CO, Rubicon) Date: 29/03/2022

Seminar

State level C/C++
Programming
Competition 2021-22

Date

30 & 31 Dec. 2021

Collaboration

Institute of Industrial and
Computer Management
and Research, Nigdi

Coordinator
Prof. B. S. Panchbhai

Venue

Seminar Hall, R.C Patel
ACS College, Shirpur

Outcomes

The program completes the knowledge of programming about C and C++ language. Students are able to develop the programs.

Welcome

Department of Computer Application and Management
An Event Report

Title of Activity: Cyber Security

Objectives:

In a guest lecture, A lecture gives students a better opportunity to learn about an explicit topic in a way that gets them involved in the class and actively join in a more convenient way of teaching. It aims to educate individuals about potential cyber threats, best practices for safeguarding sensitive information, and how to respond effectively in case of a security incident.

Program Details:

Department of Computer Application successfully conducted “Seminar on Cyber Security” at Seminar Hall, as on 14th AUG 2021 for BCA Students.

Name of Guest:

- Mr. P. R. Kulkarni
- Mr. G. K. Kothari
- Hon. Principal Dr. D.R. Patil,
- Vice- Principal Dr. A.M. Patil
- Vice- Principal Dr. R.D. Jadhav

The Seminar Guest Mr. Prasad Kulkarni Deliver Lecture about Cyber Security in detail, Describe common cyber security threats also explain Pros and Cons.

Cyber Security- It is the body of technologies, processes, and practices designed to protect networks, devices, programs, and data from attack, theft, damage, modification or unauthorized access.

The field is becoming more important due to increased reliance on computer systems, the Internet and wireless network standards such as Bluetooth and Wi- Fi and due to the growth of smart devices including smartphones, telephones, and the various devices that constitute the "Internet of things".

Why do we need cyber security? With an increasing amount of people getting connected to internet, the security threats that cause massive harm are increasing also.

Cyber security is necessary since it helps in securing data from threats such as data theft or misuse, also safeguards your system from viruses.

Date: 14th Aug 2021

Class and Participants: BCA (70 Students)

Venue: Seminar Hall, R.C Patel ACS College, Shirpur.

Outcomes of Workshop: A Cyber Security was introduced to reduce cyber crimes. These crimes will affect the loss of revenue, waste of valuable time, damage reputation and reduce productivity.

Awareness to Cyber security

09 - 11 September 2020

Program Schedule:

Sr. No.	Date	Topic	Beneficial Student
01.	09/09/2020	Introduces Cyber Security	13
02.	10/09/2020	Type of cybercrime and Act.	12
03.	11/09/2020	Basic Instrument of cyber crime	12

AIM

The Goal of cyber security is to ensure storage, control access, and prevent unauthorized processing, transfer, or deletion of data. It safeguards the confidentiality, integrity and availability of Information.

OBJECTIVES

- ✓ To exhibit knowledge to secure corrupted systems, protect personal data, and secure computer networks in an organization
- ✓ To understand principles of web security and to guarantee a secure network by monitoring and analyzing the nature of attacks through cyber/computer forensics software/tools.
- ✓ To understand cybercrime management standards, guidelines and procedures as well as the implementation and governance of these activities

CONTENT OF PROGRAMME

1. **Definition** – Crime, Cyber Crime, Information Security, Digital Forensics – Conventional Crime Vs. Cyber Crime - Uniqueness of Cyber Crime – History of Cyber Crimes.

2. **Forms of Cyber Crimes** – Hacking – types of hacking, hackers, Cracking, Dos, DDos, Cyber Bullying, Cyber Stalking, Pornography, Phishing, Intellectual Property Theft, Data Theft, Dada diddling, malwares, steganography, salami attacks, ATM and Credit card frauds, Telecom Frauds
 3. **Social Media** – Definition, Types, advantages and disadvantages – Crimes through social media, victimization through social media – Do's and Don'ts in Social Media – Safe Surfing
 4. **Understanding cyber-criminal behavior** – modus operandi - Criminological, Sociological and Psychological theories relating to cybercrime behaviour.
 5. **Information Security** - Fraud Triangle – Components of Information Security – Desktop Security – Email Security – Web Security – Threats to information security and counter
- **Timing of the course:** Two Houses a day.
 - **Eligibility Criteria:** Defence Studies Dept. Student

Workshop on “ICT / Computational skills Enhancement program”

Organized by

Department of Microbiology & Biotechnology

Circular/Notice:

All students are delighted to know that our Microbiology & Biotechnology Department has organizing a seminar on “ICT / Computational skills Enhancement program.” Everyone is encouraged to participate and enhance their skills through this program. It is important to note that the program is being offered free of cost. In this session, we will provide hands-on practice with ICT and computational skills to improve your skills and abilities. And therefore, everyone should register their participation in department of **Computer Science (Lab-2)** on or before 25/12/2020 (Friday) by 4.00 PM.

About the College:

The R. C. Patel education trust is a profound educational movement offering secondary and tertiary education since last 25 years to the rural and tribal students of this region. Besides the conventional Arts, Commerce and Science streams, the college also runs several self-finance courses according to student demand. Previously, the college has

undertaken two assessment and accreditation cycles of NAAC and accredited with ‘B’ grade on both the assessments. The majority of the students admitted in this institute come from the rural, economically backward and agriculture background for which higher education is still out of reach.

Objectives of Workshop:

- The program aims to exploit and understand biological databases to gather, store, retrieve, manage, analyze and integrate biological data for generating new knowledge.
- The program aims to impart extensive understanding and learning of theoretical concepts in Life Sciences.
- Developing and implementing computational logic, learning programming languages, algorithms and software for life science students.
- Better understanding of dynamic biological processes and their understanding at molecular level enabled through and correlated using internet and Bioinformatics.

- To develop skilled bioinformatics professionals who have life science background and who are simultaneously

Outcomes of the Workshop:

- Students undertaking the course shall have fundamental knowledge in theoretical Biochemistry, Cell Biology, Molecular Biology and Genetics. They will possess basic biochemistry practical skills and its application in research and industry.
- Students undertaking the course shall have fundamental knowledge in theoretical Microbiology and Immunology possess basic practical skills in these fields and its application in research and industry.
- Students will learn on various aspects in Biotechnology and have hands on skills in Molecular Techniques.

Programme Location: Computer Lab-2

Resource Person: Prof. Kamlesh P. Kurankar

Seminar Schedule: 10 am to 12 pm

Date: 05 - 30 January 2021

R. C. Patel A.S.C College, Shirpur
Department of Microbiology & Biotechnology
ICT / Computational skills Enhancement program

Resource Person: Prof. Kamlesh P. Kurankar

Time: 10 am to 12 pm

Duration: 05 January- 30 January 2021

No. of Beneficiaries: 19

Programme Objectives:

1. The program aims to exploit and understand biological databases to gather, store, retrieve, manage, analyse and integrate biological data for generating new knowledge.
2. The program aims to impart extensive understanding and learning of theoretical concepts in Life Sciences. Each semester exclusively devotes at least one core course in life sciences.
3. Developing and implementing computational logic, learning programming languages, algorithms and software for progressive life science solutions.
4. Better understanding of dynamic biological processes and their understanding at molecular level enabled through and correlated using internet and Bioinformatics.
5. To develop skilled bioinformatics professionals who have life science background and who are simultaneously proficient in computational aspects.
6. To introduce new age concepts of big data in the 'omics' era and their analysis.

Programme Specific Outcomes:

1. Students undertaking the course shall have fundamental knowledge in theoretical Biochemistry, Cell Biology, Molecular Biology and Genetics. They will possess basic biochemistry practical skills and its application in research and industry.
2. Students undertaking the course shall have fundamental knowledge in theoretical Microbiology and Immunology, possess basic practical skills in these fields and its application in research and industry.
3. Students will learn on various aspects in Biotechnology and have hands on skills in Molecular Techniques.
4. Students will learn basic mathematical and statistical concepts and learn to apply them in aiding life science research and analysis.
5. As beginners the students will learn to use a computer, internet, scope and applications of bioinformatics.

Content of the Programme

Unit	Content	Time duration
1.	<p>Introduction to biological databases –</p> <ul style="list-style-type: none"> • NCBI, PUBMED, sequence databases: Gene • bank, DDBJ, Swissport, PIR, EMBL, structural databases: PDB, MMDB, specialized • Databases, sequence retrieval system - SRS, ENTREZ, Expasy 	10 L
2.	<p>Sequence analysis and phylogeny - sequence and similarity:</p> <ul style="list-style-type: none"> • FASTA, BLAST • Sequence alignment: local, global, pair wise and multiple sequence, introduction to scoring matrices- • PAM and BLOSSUM, introduction to phylogenetic trees, Protein structure prediction - • Secondary structure prediction, 3D Structure prediction. 	10 L
3.	<p>Data Mining and Data Visualization, -</p> <ul style="list-style-type: none"> • Software for Data Visualization, CN3D, Rasmol, • Mol–Mol, Pymol, Chimera, SWISS PDB Viewer, Scoring matrices, local -global and multiple sequence alignment 	10 L

Expert Talk on “Cyber Security”

Organized by

Department of Computer Application and Management

An Event Report

Title of Activity: Cyber Security

Objectives:

In a guest lecture, A lecture gives students a better opportunity to learn about an explicit topic in a way that gets them involved in the class and actively join in a more convenient way of teaching. It aims to educate individuals about potential cyber threats, best practices for safeguarding sensitive information, and how to respond effectively in case of a security incident.

Program Details:

Department of Computer Application successfully conducted “Seminar on Cyber Security” at TYBCA Classroom, as on 14th AUG. 2021 for BCA Students.

Name of Guest:

- Mr. P. R. Kulkarni
- Mr. G. K. Kothari
- Hon. Principal Dr. D.R. Patil,
- Vice- Principal Dr. A.M. Patil
- Vice- Principal Dr. R.D. Jadhav
- HOD- Ms. M. G. Vaidya

The Seminar Guest Mr. Prasad Kulkarni Deliver Lecture about Cyber Security in detail, Describe common cyber security threats also explain Pros and Cons.

Cyber Security- It is the body of technologies, processes, and practices designed to protect networks, devices, programs, and data from attack, theft, damage, modification or unauthorized access.

The field is becoming more important due to increased reliance on computer systems, the Internet and wireless network standards such as Bluetooth and Wi- Fi and due to the growth of smart devices including smartphones, telephones, and the various devices that constitute the "Internet of things".

Why do we need cyber security? With an increasing amount of people getting connected to internet, the security threats that cause massive harm are increasing also.

Cyber security is necessary since it helps in securing data from threats such as data theft or misuse, also safeguards your system from viruses.

Date: 14th AUG. 2021

Class and Participants: BCA (60 Students)

Venue: TYBCA Classroom, R.C Patel ACS College, Shirpur.

Outcomes of Workshop: A Cyber Security was introduced to reduce cybercrimes. This crimes will affect the loss of revenue, waste of valuable time, damage reputation and reduce productivity.

As an IT user, we should have to be aware of some of the cyber laws in the country. We can be more careful and never involve in any cybercrime.

Glimpse of Workshop

Guest lecture by Mr. G.K.Kothari on “Cyber Security” (Date: 14/08/2021)

Seminar On

“Importance of Cyber Security”

Organized by

Department of Computer Application and Management

An Event Report

Title of Activity: Cyber Security

Objectives:

In a guest lecture, A lecture gives students a better opportunity to learn about an explicit topic in a way that gets them involved in the class and actively join in a more convenient way of teaching. It aims to educate individuals about potential cyber threats, best practices for safeguarding sensitive information, and how to respond effectively in case of a security incident.

Program Details:

Department of Computer Application successfully conducted “Seminar on Cyber Security” at Seminar Hall, as on 18th SEPT. 2018 for BCA Students.

Name of Guest:

- Mr. P. R. Kulkarni
- Hon. Principal Dr. D.R. Patil,
- Vice- Principal Dr. A.M. Patil
- Vice- Principal Dr. R.D. Jadhav

The Seminar Guest Mr. Prasad Kulkarni Deliver Lecture about Cyber Security in detail, Describe common cyber security threats also explain Pros and Cons.

Cyber Security- It is the body of technologies, processes, and practices designed to protect networks, devices, programs, and data from attack, theft, damage, modification or unauthorized access.

The field is becoming more important due to increased reliance on computer systems, the Internet and wireless network standards such as Bluetooth and Wi- Fi and due to the growth of smart devices including smartphones, telephones, and the various devices that constitute the "Internet of things".

Why do we need cyber security? With an increasing amount of people getting connected to internet, the security threats that cause massive harm are increasing also.

Cyber security is necessary since it helps in securing data from threats such as data theft or misuse, also safeguards your system from viruses.

Date: 18 Sept. 2018

Class and Participants: BCA (52 Students)

Venue: Seminar Hall, R.C Patel ACS College, Shirpur.

Outcomes of Workshop: A Cyber Security was introduced to reduce cybercrimes. These crimes will affect the loss of revenue, waste of valuable time, damage reputation and reduce productivity.

Resource Person: Mr. Prasad R. Kulkarni Date: 18th September 2018
