INDEX

2.5.1 Mechanism of internal/ external assessment is transparent, and the grievance redressal system is time- bound and efficient

1. Introduction

The evaluation of student performance is a crucial tool for assessing the outcomes of the teaching-learning process, which is an integral part of the TLP. This evaluation is consistently carried out at the Higher Education Institution (HEI) through the implementation of policies and procedures. Student assessment is conducted through both internal evaluation and performance in university examinations. In order to ensure transparency and efficiency in the evaluation process, various measures are regularly employed with the assistance of the college's faculty and staff. The college adheres to the rules and regulations set by the affiliating university. A dedicated college examination committee is responsible for the smooth conduct and functioning of all examination processes, while the college examination officer coordinates the routine activities related to examinations.

2. Policies

HEI has framed various policies and defined procedures for evaluation of students. These are reviewed as per the needs. These are as follows:

1. Perspective Plan
2. Academic Policy
3. e-Governance
4. ICT Facility
5. Resource Mobilization
6. Code of Conduct for Ethical Practice
7. Student's Grievance Redressal Cell

3.   College Examination Committee

The college examination committee is constituted in the HEI for the smooth and effective functioning of the examination process. The committee is chaired by the Principal and College Examination Officer (CEO) is the member secretary. The members of examination committee include one senior faculty member from each faculty.

Functions:

1. Preparation and implementation of calendar.
2. Conduct of Internal and External Examinations.
3. Correspondence with university.
4. Declaration of results.
5. Address the students' grievances with the help of grievance redressal cell.

65 to 74	A : Very Good	5
55 to 64	B : Good	4
50 to 54	C : Average	3
45 to 49	D : Satisfactory	2
40 to 44	E : Pass	1
0 to 39	F : Fail	0

7.2. Every paper carries maximum of 6 grade points. Similarly each paper carries 4 credit points. Thus, each paper carries maximum of 24 CR x GP points.

7.3. One semester carries 7 papers of 24 CR x GP points each. Thus, every semester carries maximum of 168 CR x GP points.

7.4. The BMS (e-commerce) programme consists of 6 semesters, each carrying 168 CR x GP points. Thus, The BMS (e-commerce) programme in all carries maximum of 1008 CR x GP points.

7.5. The grade point will be given on the basis of total marks (sum of mark obtained in internal assessment and Semester examination) obtained by a student in a subject.

Total CR x GP points = Grade points obtained (vide Table-1) x Credits for the course

7.7.1. The performance of a student in a semester is indicated by a number called SGPA. SGPA is the weighted average of the grade points obtained in all courses registered by the student during the semester. It shall be calculated as follows-

$$SGPA = \frac{\sum_{i=1}^{n} C_i p_i}{\sum_{i=1}^{n} C_i} = \frac{\sum_{i=1}^{n} 4 p_i}{28}$$

Where,

C_i = the maximum number of credits prescribed for the ith course of a semester for which SGPA is to be calculated

p_i = grade point earned in the ith course

i = 1,2,3........n represent the number of courses in which a student is registered in the concerned semester.

That is,

$$SGPA = \frac{\text{Total CR x GP points earned for the Semester}}{\text{Total Credit points for the Semester}}$$

SGPA is rounded up to two decimal places.

7.8. Final result

Up-to-date assessment of the overall performance of a student from the time of his/her first registration is obtained by calculating a number called Cumulative Grade Point Average (CGPA), which is a weighted average of the grade points obtained in all courses registered by the student since he/she has been admitted to the **BMS e-com** course.

$$CGPA = \frac{\sum_{j=1}^{m} C_j p_j}{\sum_{j=1}^{m} C_j}$$

Where

C_j = the number of credits earned in the jth course up to the semester

p_j = grade point earned in the jth course.

A letter grade lower than E (i.e. grade point < 1) in a course shall not be taken into consideration for the calculation of CGPA

j = 1, 2,3……m represent the number of courses in which a student is registered up-to the semester for which the CGPA is to be calculated

The CGPA is rounded up to two decimal places.

7.9. The final grade earned shall be as per Table given below-

Final grade to be awarded and equivalent percentage of marks of the candidate based on his/her CGPA

CGPA Value	Final Grade to be awarded to the candidate	Equivalent range for percentage of marks	Formula for obtaining equivalent approximate percentage of marks
5.50-6.00	0: Outstanding	75-100	$75 + \left\{ \frac{(CGPA - 5.5)}{0.02} \right\}$
4.50-5.49	A: Very Good	65-74	$65 + \left\{ \frac{(CGPA - 4.5)}{0.02} \right\}$
3.50-4.49	B: Good	55-64	$55 + \left\{ \frac{(CGPA - 3.5)}{0.02} \right\}$
2.50-3.49	C: Average	50-54	$50 + \left\{ \frac{(CGPA - 2.5)}{0.02} \right\}$
1.50-2.49	D: Satisfactory	45-49	$45 + \left\{ \frac{(CGPA - 1.5)}{0.02} \right\}$
1.00-1.49	E: Pass	40-44	$40 + \left\{ \frac{(CGPA - 1.0)}{0.02} \right\}$

6. Grades:

6.1. Marks for each course would be converted into grade points as per **Seven-Point** grading scale as stated in the following table.

Table 1 Table Showing Conversion of Marks into grade points

Marks Obtained	Grade	Equivalent Grade points
75 to 100	O : Outstanding	6
65 to 74	A : Very Good	5
55 to 64	B : Good	4
50 to 54	C : Average	3
45 to 49	D : Satisfactory	2
40 to 44	E : Pass	1
0 to 39	F : Fail	0

6.2. Every paper carries maximum of 6 grade points. Similarly each paper carries 4 credit points. Thus, each paper carries maximum of 24 CR x GP points.

6.3. One semester carries 4 papers of 24 CR x GP points each. Thus, every semester carries maximum of 96 CR x GP points.

6.4. The M.Com programme consists of 4 semesters, each carrying 96 CR x GP points. Thus, The M.Com programme in all carries maximum of 384 CR x GP points.

6.5. The grade point will be given on the basis of total marks (sum of mark obtained in internal assessment and Semester examination) obtained by a student in a subject.

6.6. The CR x GP points earned in each course shall be calculated as –

Total CR x GP points = Grade points obtained (vide Table-1) x Credits for the course

6.7. Semester Grade Point Average (SGPA) –

6.7.1. The performance of a student in a semester is indicated by a number called SGPA. SGPA is the weighted average of the grade points obtained in all courses registered by the student during the semester. It shall be calculated as follows-

$$SGPA = \frac{\sum_{i=1}^{n} C_i p_i}{\sum_{i=1}^{n} C_i} = \frac{\sum_{i=1}^{n} 4 p_i}{16}$$

Where,

    C_i = the maximum number of credits prescribed for the ith course of a semester for which SGPA is to be calculated

    p_i = grade point earned in the ith course

    i = 1,2,3……n represent the number of courses in which a student is registered in the concerned semester.

That is,

$$SGPA = \frac{\text{Total CR x GP points earned for the Semester}}{\text{Total Credit points for the Semester}}$$

SGPA is rounded up to two decimal places.

6.8. Final result

Up-to-date assessment of the overall performance of a student from the time of his/her first registration is obtained by calculating a number called Cumulative Grade Point Average (CGPA), which is a weighted average of the grade points obtained in all courses registered by the student since he/she has been admitted to the **M.Com** course.

$$CGPA = \frac{\sum_{j=1}^{m} C_j p_j}{\sum_{j=1}^{m} C_j}$$

Where

C_j = the number of credits earned in the jth course up to the semester

p_j = grade point earned in the jth course.

A letter grade lower than E (i.e. grade point < 1) in a course shall not be taken into consideration for the calculation of CGPA

j = 1, 2,3 ......m represent the number of courses in which a student is registered up-to the semester for which the CGPA is to be calculated

The CGPA is rounded up to two decimal places.

6.9. The final grade earned shall be as per Table given below-

Final grade to be awarded and equivalent percentage of marks of the candidate based on his/her CGPA

CGPA Value	Final Grade to be awarded to the candidate	Equivalent range for percentage of marks	Formula for obtaining equivalent approximate percentage of marks
5.50-6.00	0: Outstanding	75-100	$75 + \left(\frac{(CGPA - 5.5)}{0.02}\right)$

M. Sc. Part: II Microbiology

Prelude

The need for trained and skilled human resource is a prerequisite in the higher education. This coerces the necessity to acquire thorough knowledge of theoretical concepts and hands-on laboratory methods of the subject. On this streak, the present syllabus of M.Sc. part II in the subject Microbiology has been prepared as per the guidelines of UGC and cultivate a theoretical and practical know how of different fields of Microbiology. The contents of syllabus have been prepared to accommodate the fundamental aspects as well as advanced developments in various disciplines of Microbiology and to complement the needs of various applied sectors of Microbiology. Beside this, the graduate students will be enlightened with knowledge in the newer areas of Environmental, Molecular, Pharmaceutical, Agricultural Microbiology, etc. Post graduate students will surely have an urge to endure research studies in Microbiology and contribute significantly in the development.

The present syllabus is restructured to cater the present and future needs of Microbiology in research field, Industrial Sector, Environmental Sector, etc., with more emphasis on imparting hands-on skills. Hence, the curriculum is endowed with more experiments that shall run hand-in-hand with theory. The extensive appendix is furnished for each course to support know how and suffice the inquisitive of the students. The detailed syllabus of each paper is appended with a list of suggested readings.

b. Continuous Assessment (CA)

Continuous assessment is a method used to assess students' learning experiences. It involves evaluating students' performance continuously to track their progress. The institution has established a system for continuous assessment. The Curriculum Evaluation Committee (CEC) creates the academic calendar for Continuous Internal Evaluation (CIE) based on the university calendar, which is then communicated to students through various channels. The Higher Education Institution (HEI) follows the Choice Based Credit System (CBCS) for different programs, where student performance is assessed through CIE using various evaluation criteria such as class tests, assignments, tutorials, discussions, tests, seminars, group projects, fieldwork, surveys, excursions, and oral examinations. Faculty members prepare question papers and question banks based on Bloom's taxonomy. Formative assessment is used to monitor students' progress, while summative assessment includes mid-term exams, projects, and end-of-semester internal exams. At the end of the semester, internal evaluation marks are finalized and sent to the university. Students' learning experiences in CIE are assessed based on course outcomes, and the details of CIE are maintained by academic departments.

c. University Examination

University examinations are held at the conclusion of each semester to assess academic progress. The assessment encompasses degree percentage, learning outcomes, POs, and COs. The examinations are conducted fairly and smoothly to uphold students' learning aspirations. Results are announced by the university within the specified timeframe. College faculties and staff play a significant role in various examination responsibilities like invigilation, paper setting, assessment, revaluation, etc., as assigned by the university periodically. During the pandemic, the evaluation process underwent a complete transformation. The college reevaluated its resources and procedures, implementing all necessary measures for online evaluation. Students were assessed through online quizzes, tests, oral exams, telephonic assessments, etc., in accordance with the guidelines of University. Despite the challenges and restrictions imposed by the lockdown, the college utilized its ICT resources and faculty engagement to ensure all learners were reached and actively participated in the evaluation process.
