Introduction

R. C. Patel Educational Trusts, R. C. Patel Arts, Commerce & Science College, Shirpur is dedicated to providing high-quality education to students from rural areas in the Dhule District. The college offers a wide range of degree programs at both the undergraduate and postgraduate levels to meet the diverse needs of students with varying learning abilities. The institute's commitment to delivering quality education is measured by the outcomes achieved by its students.

The college follows a university curriculum and employs an outcome-based education approach in line with UGC-Learning Outcomes-based Curriculum Framework (LOCF) guidelines. The faculty members of the academic departments clearly define the learning outcomes for each course and program, which are then made available on the college's website. These outcomes, known as course outcomes (COs) and program outcomes (POs), describe the knowledge, qualities, skills, and competencies that students are expected to acquire upon completion of their studies. They are defined for all academic programs, including both undergraduate and postgraduate levels.

The attainment of COs and POs is assessed by the respective departments using course files, results, and CO-PO mapping sheets. The evaluation of attainment levels is based on the performance of students in both internal and external examinations. The college's Outcome Based Education (OBE) committee has clearly defined the mechanism for internal attainment evaluation.

External attainments are measured through various means, such as degree percentages, rankings in university results, placements, higher progression, awards, achievements, feedback, and lifelong learning experiences. Surveys are also conducted upon the completion of courses and programs to assess the level of attainment.
