IPR Cell and innovation activities

Brief description

The R. C. Patel Arts, Commerce and Science College has established an incubation cell under the KBC north Maharashtra University incubation centre. The College created an ecosystem for which it conducts various activities. The objective of the cell is to inculcate the basics of innovations and entrepreneurship among the faculties and students. The institution is also working as a bridge between society and stakeholders for transferring the knowledge, innovations and some scientific solutions for the problem encountered. The college has established Academic research Committee (ARC) which promotes the research collaboration and research culture among the faculty members. ARC promotes the faculty members and students to undertake research work by providing basic research facilities, necessary guidance etc. The college has subscribed the Turnitin facility for detecting the plagiarism in their academic/research writing. The research committee of the college undertakes the review of the research projects/papers before submission to funding agencies or journals. One of the faculty of the college is working on Research Committee of the KBC North Maharashtra University. We have collaboration with many academic institutes, research labs, industry. Our knowledge resource center (KRC) is well equipped with many journals, e-books, many reference books and facilities such as N-LIST. Due to these facilities we have significant number of publications in peerreviewed journals of repute and patents. Research and innovative ideas of the scholars are cultivated. From the year 2023-24, as per the New Education Policy 2020 (NEP 2020), the college is conducting one month research/industrial internship, On job training (OJT) for first year students of all PG courses. This has helped students to understand industry needs, skill sets required for taking career in research and industry.

Functioning of ecosystem for Research and Innovation:

The innovation, importance of IPR and patenting is promoted among the students and faculty through following activities.

- (i) Recruiting and developing desirable human resource**
- (ii) Taking initiatives for creation and dissemination of knowledge and**
- (iii) Establishing state of the art infrastructure**
- (iv) Establishing the IPR cell in the college.**

The Institution provides a conducive environment for promotion of Innovation and Incubation. All required facilities are provided and Guidance is extended to the students.

Students are encouraged to actively involved in the application of Technology for societal needs. Necessary support is provided for Documentation, Publication of Research Papers and also for obtaining patents.

- Awareness meets, workshops, seminars and guest lectures on Entrepreneurship are organized. Students are provided opportunities to directly interact with outstanding entrepreneurs excelling in their field. Product service Training is provided for creating awareness on marketing the products.
- The sole objective of the Incubation Centre is to facilitate students to convert their Ideas into Technological Innovations. Students are provided facilities to build prototypes useful for promotion of Agriculture and Rural Development. Workshops on emerging trends in Technology are held. Model Expos are held. Students are awarded cash prizes for best models. Students are encouraged to gain hands on experience and better Industrial Exposure.
- College has recognized Research Centres in the several departments and this would be an added advantage to the students to develop their Prototypes.

The IPR Cell of the college

Intellectual property refers to creations of the mind that could be scientific invention, literary and artistic work, and symbol, name, image, and design for which a set of exclusive rights like copyrights, trademarks, patents, industrial design rights and trade secrets are recognized under the corresponding fields of IP law. Intellectual property creation and its protection are very important issues in recent days especially for institutes involved in R & D activities.

Structure of IPR Cell

Sr. No.	Name of faculty	Designation
1	Prof. D. R. Patil Hon'ble Principal, RCPACS, Shirpur	Chairman
2	Prof. A. M. Patil Vice-Principal, RCPACS, Shirpur	Member

About the College:

The R. C. Patel education trust is a profound educational movement offering secondary and tertiary education since last 25 years to the rural and tribal students of this region. Besides the conventional Arts, Commerce and Science streams, the college also runs several self-finance courses according to student demand. Previously, the college has undertaken two assessment and accreditation cycles of NAAC and accredited with 'B' grade on both the assessments. The majority of the students admitted in this institute come from the rural, economically backward and agriculture background for whom higher education is still out of reach.

About the Seminar

Intellectual Property Rights in the field of Biotechnology and the Life Sciences has been high on the agenda of the policymakers from last decade. Moreover, here has been a wide and ongoing debate on the nature and scope of these rights particularly for plant varieties, GMOs, pharmaceuticals and

novel drugs. WIPO has defined these rights as rights accruing from creations of mind. But, the value of Intellectual Property does not lie merely in creation and development rather in its commercialization. Intellectual Property is a powerful commercial asset whose commercialization is yet to be fully developed in India. However, the lack of awareness and the cumbersome process of getting protection to these rights have led to numerous incidents of plagiarism, stealing of traditional knowledge of local communities, amongst others. Large scale schemes and programs spreading awareness among people including communities and students is the need of the hour.

The theme of seminar

- Intellectual Property: Concept
- Intellectual Property Rights: Emerging Issues and challenges
- Evolution of Biotechnology and Patents
- Protection of Traditional Knowledge
- Plant Variety Protection
- Pharmaceutical Patents and Public Health

महाविद्यालयातील सूक्ष्मजीवशास्त्र व जैवतंत्रज्ञान विभागाच्या संयुक्त विद्यमाने अखिल भारतीय तंत्रशिक्षण परिषदेच्या प्राध्यापकांच्या विकासासाठी राबवत असलेल्या ए.आय.सी.टी.ई. प्रशिक्षण आणि शिक्षण (अटल) प्रकल्पांतर्गत पाच दिवसीय राष्ट्रीय स्तरावरील 'लिडरशिप अँड एक्सलन्स इन हायर एज्युकेशन' या विषयावर ऑनलाईन झूम ऑपच्या

माध्यमातून सुरू असलेल्या राष्ट्रीय प्राध्यापक विकास कार्यक्रमाचे सत्र उत्साहात संपन्न झाले.

प्राचार्य डॉ. डी. आर. पाटील यांच्या मार्गदर्शनाखाली महाविद्यालयातील सूक्ष्मजीवशास्त्र विभाग प्रमुख डॉ. संदीप पी. पाटील, जैवतंत्रज्ञान विभागाचे प्रमुख डॉ. रविन्द्र एच. पाटील तसेच प्रा. महेश पाटील, डॉ. लीना शिरसाठ, डॉ. मोहिनी पाटील, प्रा. अमृता जोशी, प्रा. अश्विनी पाटील, प्रा. हर्षा परदेशी, प्रा. वर्षा जयस्वाल, प्रा. विशाखा डोके, प्रा. शुभम यादव, प्रा. रत्नेश्वर भावसार, गणेश सोनार, संजय मोरे, बन्सीलाल चौधरी, डी. यु. पटेल, संदेश राजपूत, मेहुल गुजराथी, लक्ष्मीकांत मोरे आदी आयोजनासाठी प्रयत्नशील आहेत.

Research promotion activities under IPR cell and ARC/RAC

The college has established Academic research Committee (ARC) which promotes the research collaboration and research culture among the faculty members. ARC promotes the faculty members and students to undertake research work by providing basic research facilities, necessary guidance etc. The college has subscribed the Turnitin facility for detecting the plagiarism in their academic/research writing. The research committee of the college undertakes the review of the research projects/papers before submission to funding agencies or journals. One of the faculty of the college is working on Research Committee of the KBC North Maharashtra University. We have collaboration with many academic institutes, research labs, industry. Our knowledge resource center (KRC) is well equipped with many journals, e-books, many reference books and facilities such as N-LIST. Due to these facilities we have significant number of publications in peer reviewed journals of repute and patents. Research and innovative ideas of the scholars are cultivated. From the year 2023-24, as per the New Education Policy 2020 (NEP 2020), the college is conducting one month research/industrial internship, On job training (OJT) for first year students of all PG courses. This has helped students to understand industry needs, skill sets required for taking career in research and industry.

(57) Abstract :

The present invention relates to a low-cost system (100) for health monitoring with maintaining COVID-19 protocol. The system (100) comprises a temperature sensor (102), a humidity sensor (104), a central processing unit, a user display unit (112), and a bluetooth module (108). The temperature sensor (102) is configured to monitor the patients' body temperature level. The humidity sensor (104) is configured to monitor the patients' body humidity level. The central processing unit (106) is operationally connected with the temperature sensor (102) and humidity sensor (104). The present invention provides a low-cost system (100) for health monitoring with maintaining Covid-19 protocol that can help the patients to reduce physical contact, wait time, and total health costs while also decreasing medical staff strain, burden, and stress.

Activities under Indian Knowledge System (IKS)

For the majority of recorded history, the Indian subcontinent—home to the world's oldest continuously existing civilization—has dominated knowledge and manufacturing globally. a Dharmic civilization that prioritized the growth of all facets of mankind while emphasising harmony with one's surroundings, oneself, and the cosmos as a whole. Recent events worldwide have made it abundantly clear that the existing paradigms of development are unsustainable and seriously at odds with the natural world. There is an urgent need for new development paradigms, as evidenced by the growing disparities in the modern world. There is an Indian way that aims to promote everyone's welfare while still being sustainable.

IKS component in curriculum

Skilled human resource is a prerequisite in higher education, and it is to be acquired through thorough knowledge of theoretical concepts and hands-on laboratory methods of the subject. The Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon has adopted a department-specific model as per the guidelines of UGC, NEP-2020 and the Government of Maharashtra. Several faculty members of the college are working as members for the Board of Studies various subjects and they have contributed in the design of IKS syllabus. The board has prepared the syllabus for the first-year undergraduate of Microbiology, Biotechnology, Physics etc. The syllabus cultivates theoretical and practical know-how of different fields of Microbiology. The contents of the syllabus have been prepared to accommodate the fundamental aspects of various disciplines of Microbiology and to build the foundation for various applied sectors of Microbiology. Besides this, in the first year, the students will be enlightened with the skill related to agricultural microbiology and microbial analysis of soil, water and air, which will enhance students' employability and sustainable development.

PG students' research projects based on IKS:

Indian traditional knowledge encompasses a vast array of ancient wisdom, practices, and systems that have been passed down through generations. One of the most important examples of Indian traditional knowledge is **Ayurveda**. This is a holistic system of medicine that originated in ancient India. It emphasizes the balance of mind, body, and spirit and uses natural remedies, herbs, diet, and lifestyle practices to promote health and well-being. The project work for MSc students involves many aspects related to Ayurveda, traditional herbs, traditional knowledge etc. For example, medicinal plants research for skincare and beauty practices using natural ingredients. Develop a line of Ayurvedic skincare products such as herbal face packs, oils, and hair treatments based on ancient formulations. The projects are also designed to explore the science of Ayurvedic pharmacology and formulation of herbal medicines to validate their antimicrobial, antioxidative, anti-inflammatory and plant growth promoting potential. A few topics of projects completed by PG students are mentioned below:
